

Domain	Description	Specific Skills Tested
Information and Ideas	Measures comprehension, analysis, and reasoning skills and knowledge as well as the ability to locate, interpret, evaluate, and integrate information and ideas from texts and informational graphics (tables, bar graphs, and line graphs). - Identify central ideas and relevant details in texts. - Find and interpret evidence to support conclusions. - Make logical inferences based on textual information.	Central Ideas and Details These questions ask you to identify a main or supporting detail about the passage. The wording of the questions will vary but you can expect to see things like: Which choice best states the main idea of the text? Based on the text, what is true about this character? Inferences Inference questions ask you, “Which choice most logically completes the text?” For this type of question, it’s critical to find evidence in the passage to support your answer choice. Command of Evidence This testing point has two subtypes: textual and quantitative. Textual command of evidence questions will ask you to select a quote or a detail that either supports or challenges a claim. You’ll want to identify the claim and select the answer choice that fully responds to it. Partial matches are common distractors. Quantitative command of evidence questions are accompanied by tables and/or graphs (charts). Beware of answers that misread the data and be sure to read the passage carefully to understand the full context.

Domain	Description	Specific Skills Tested
Craft and Structure	Measures the comprehension, vocabulary, analysis, synthesis, and reasoning skills and knowledge needed to understand and use high-utility words and phrases in context, evaluate texts rhetorically, and make connections between topically related texts. • Build a strong vocabulary through extensive reading and practice. • Understand words in context by paying attention to surrounding clues. • Analyze text structure and purpose to grasp the author's intent. • Make cross-text connections by comparing themes and perspectives.	• Words in Context These questions test your vocabulary by asking you to fill in the blank with the word or phrase that best fits the passage. Occasionally, they'll ask you to interpret the meaning of an underlined word. • Text Structure in Purpose You'll need to identify how a passage is organized, determine the purpose of the text as a whole, or analyze how a smaller excerpt fits within the passage's overall structure and purpose. • Cross-Text Connection These questions require you to compare and contrast two short passages. This is the only question type where you'll see a pair of passages. Some cross-text connections questions will ask you to find a similarity while others will ask you to find a difference.
Expression of Ideas	Measures the ability to revise texts to improve the effectiveness of written expression and to meet specific rhetorical goals. • Synthesize information to create coherent sentences. • Use transition words and phrases effectively. • Understand the writer's intent and improve clarity.	• Rhetorical Synthesis You'll see a bullet-point list accompanied by a goal. You'll have to select the choice that "uses relevant information from the notes to accomplish the goal." Make sure your choice addresses every part of the goal. • Transitions Similar to words and context questions. You'll need to select the word or phrase that "completes the text with the most logical transition."

Domain	Description	Specific Skills Tested
Standard English Conventions	Measures the ability to edit text to conform to core conventions of Standard English sentence structure, usage, and punctuation. - Understand and apply rules of sentence structure. - Master Standard English usage and grammar. - Use punctuation correctly to enhance clarity.	Boundaries These questions test your knowledge of punctuation and how it can be used to separate or connect clauses. You'll want to make sure you know when to use commas, semicolons, colons, and dashes, as well as when to start a new sentence. Form, Structure, and Sense These questions test your grasp of grammar rules. For many reading and writing questions, it's helpful to come up with your own answer before looking at the answer choices. However, for these questions, it's helpful to look at the answer choices first because they will reveal which concept is being tested.
